All quilt length and width measurements reference the dimensions of the sewn but not filled product. Actual finished measurements after filling will vary due to the nature of loft. Measurements are based on a quilt with a Zipper & Draw Cord foot box, the foot box fully opened, the quilt laying out flat. The addition of a Boxed Flat Sewn or Insulated Foot Box will shorten the overall measurement of the quilt by 4-6". This will not affect the sizing recommendations so please make your selection based on the recommendations above. Due to the nature of individual production actual measurements may vary from those shown here. Unless otherwise noted, this chart reflects the lightest product weight with M10T inner/outer fabrics, a boxed flat sewn footbox, and no additional options. Production Tolerance is +/-5%
